

## 2019 RTS 28 Quality of Execution Annual Report

In this report, HBK Europe Management LLP (“HBK Europe” or “the Firm”) is providing information required by Regulatory Technical Standard 28 of the MiFID II regulation (“RTS 28”), as adopted by the U.K.’s Financial Conduct Authority (“FCA”). On an annual basis, HBK Europe is required to provide disclosures around the brokers and venues it used to effect trades in various asset classes and certain information on the quality of execution obtained in line with the RTS 28 requirements.

HBK Europe’s only client is an affiliated entity and a professional client. It is important to emphasize that we are not providing you with any investment management services. We provide these services only to our affiliated client. This report is not a recommendation to sell or purchase any investment, and it does not form a part of any contract for the sale or purchase of any investment.

The accompanying tables have been generated solely to comply with RTS 28 and contain derived information that we believe to be correct. However, much of this information is not used in our operations, nor has it been verified or tested by a third party, and we cannot guarantee that it is reliable or error-free.

Goldman Sachs Intl W22LROWP2IHZNBB6K528	6.3%	1.2%	N/A	N/A	0%

<sup>1</sup> For certain transactions, where the Firm makes an investment decision it may pass the resultant order to a group affiliate to execute the purchase or sale. Because such transactions result from the Firm transmitting orders to an affiliate, those transactions are classed as “indirect trading” and, as a result, such affiliate is included in this table.

HSBC Bank Plc MP6I5ZYBUEU3UXPYFY54	100.0%	100.0%

<b>Class of Instrument</b>	Structured Finance Instruments
<b>Summary of Analysis and Conclusion</b>	<p>For this instrument class, the Firm considered the following execution factors to be important: price and likelihood and speed of execution. Other execution factors ranked equally. The relative importance of the execution factors given to this instrument class was determined by the following execution criteria:</p> <ul style="list-style-type: none"> <li>• The Firm's only client is a professional client</li> <li>• The characteristics of the relevant order, the nature and liquidity of financial instruments subject to that order, and the brokers and venues to which that order could be directed</li> </ul>

<b>Class of Instrument</b>	Equity Derivatives (ii) Swaps and other equity derivatives
<b>Summary of Analysis and Conclusion</b>	<p>For this instrument class, the Firm considered price to be the most important execution factor, with other factors ranking equally. The relative importance of the execution factors given to this instrument class was determined by the following execution criteria:</p> <ul style="list-style-type: none"> <li>• The Firm’s only client is a professional client</li> <li>• The characteristics of the relevant order, the nature and liquidity of financial instruments subject to that order, and the brokers and venues to which that order could be directed</li> </ul> <p>Transactions included within this instrument class are often effected in connection with a request for “indicative pricing” from a broker. If the indicative pricing is acceptable to the Firm, the broker then enters into a cash equity transaction with the relevant swap counterparty and a corresponding swap arises between the swap counterparty and the underlying fund or funds on whose behalf the Firm is acting. Although the pricing of the cash equities transaction influences the pricing of the related swap, the Firm has not included the indicative pricing activity conducted with brokers in the analysis of its top five execution venues above (or in the equities instrument class) because the Firm does not execute (or transmit or place orders that give rise to) such cash equities transactions. Instead, the Firm has, for the purposes of the equity derivatives instrument class, counted only the swap transactions to which the relevant funds are party (and has treated its involvement in effecting those transactions as a form of “direct” execution, with the consequence that it has categorized the relevant swap counterparties as execution venues rather than brokers).</p>

**HBK Europe Management LLP**  
**RTS 28 Quality of Execution Annual Report**

<b>Summary of Analysis and Conclusion</b> (Applicable for all reported classes of instruments)	
<b>Close links, conflicts of interest and common ownership with respect to execution venues</b>	<p><b>Close Links</b></p> <p>The Firm has a close link relationship with HBK Services LLC (the Firm’s only client), which in turn is a subadvisor to HBK Investments L.P., a group affiliate used by the Firm during the Disclosure Period for indirect execution of orders. This allows trading desks in different geographical locations to be utilized to execute orders. There is no commercial incentive to route orders to different HBK-affiliated entities and the prime objective is to assist the Firm in taking sufficient steps towards achieving the best possible outcome on a consistent basis.</p> <p><b>Conflicts of Interest</b></p> <p>Front office employees of the Firm have personal connections with certain of the venues/brokers used during the Disclosure Period. These potential conflicts of interest were disclosed, reviewed and managed in accordance with Firm policy.</p> <p><b>Common Ownerships</b></p> <p>The Firm and HBK Investments L.P. are under common control. There is no commercial incentive to route orders to different HBK-affiliated entities and the prime objective is to assist the Firm in taking sufficient steps towards achieving the best possible outcome on a consistent basis.</p>
<b>Specific arrangements with execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received.</b>	None, other than receipt of minor non-monetary benefits that were disclosed and managed in accordance with Firm policy.
<b>Factors leading to a change in the list of execution venues listed in the order execution policy</b>	<p>Routine additions and deletions to the Firm’s list of approved execution venues/brokers was based upon a number of factors, including:</p> <ul style="list-style-type: none"> <li>• Level of use</li> <li>• Regulatory status</li> <li>• Quality of execution</li> <li>• Ability to provide liquidity</li> <li>• Changing business needs (such as trading in a new geographical region or a new instrument type)</li> </ul>
<b>Differentiation across client categories</b>	N/A – the Firm’s only client is a professional client.
<b>Use of data/tools relating to quality of execution</b>	<p>During the Disclosure Period, the Firm used the following data and/or tools relating to quality of execution:</p> <ul style="list-style-type: none"> <li>• Group level Counterparty Review Committee, comprised of senior management and front office personnel, which meets at least annually</li> <li>• Broker vote platform, which incorporates periodic assessments of execution topics</li> <li>• Real-time market data feeds provided by exchanges</li> <li>• Pricing and shredder system that compiled and published fixed income pricing data</li> <li>• Monitoring activities conducted on a regular basis, including in some cases, the use of TCA outlier reports generated from trading platforms</li> <li>• Proprietary systems that provide personnel with real-time transaction and commission information and facilitate the onboarding and ongoing monitoring of approved brokers and authorized traders</li> <li>• Note: RTS 27 data became available for the first time during 2018. However, the raw data published by venues and relevant investment firms is in a format that is difficult to use/assess, and the Firm is not aware of any product that facilitates a comparative analysis of the performance of relevant brokers and venues based on the data. The Firm has therefore not used RTS 27 data this year in carrying out its analysis of execution quality, but will keep its approach under review and monitor for developments, particularly as regards the availability of a product, as referenced, which enables market participants to harness and make better use of the data.</li> </ul>
<b>Use of consolidated tape provider output</b>	N/A – no consolidated tape providers were in operation in the EEA during the Disclosure Period.
